Dear Sir

I have for more than a week past expected to hear from you respecting the settlement of my Accot. as Sheriff of this County

My Brother informed me when he returned from Boston that you apprehended you would take the subject matter of my letter forward you by him into consideration and would write me in a few days

I have not as yet heard from you on that subject since my Brother returned, and fear uneasy for fear your letter may have miscarried. You I am sure must be fully apprised of my situation as Sheriff and as according to the Laws of the State in 2nd Vol. page 372. Section 9 that I must appeal to the present Legislature for redress in the premises stated, I have forwarded to General Mitchell a petition to be laid before the Legislature, provided you have not thought yourself authorized to Order for 90$ the sum against Gov. Rhoads.

In which event I must request you to deliver the copies of the record which my Brother left with you to General Mitchell

I hope you will give to the Legislature any information in your power that will contribute to a correct result of the business. I am Sir your respectfull Obdt. Sert.

Dear Sir, We have received your favor of the 13th inst. — The present price of Deposit Notes is from 100 to 100 1/2 Cent at which Sales have been made within a day or two. — We could not assign a reason in the case U.S. Bank stock, as it is impossible to form a correct opinion of the result of that Institution — The state of our Banks is at present at 131 Cents, the Charter of that Bank will expire the 14th March 1815, which has occasioned the present depression of the stock. — The community of people here prefer the Farmers & Mechanics Bank Notes, the present price of which is from 137 1/2 to 138 Cts. the original Amount of each Share is Fifty Dollars their last dividend was 5 Pct for six Months —

Since I last had the pleasure of seeing you I have communicated to my father the proposition which you made respecting his house, viz that you would pay the difference between the rent which Mr Strobel has engaged to give, and that for which you yourself took it, and transfer to him the agreement between Messrs Lowber & Strobel, with a view to make him his tenant all of which I am authorized to say he is perfectly satisfied with, and will approve of the arrangement as it will be much easier for him to get rid of Mr Strobel as a tenant, than to be obliged to give him notice thro' you, which perhaps would not be so effectual —

Peter Comly Esq

Dear Sir

Your favor of the 13th Inst I had not the pleasure to receive until this morning I regret that all descriptions of stock are so situated at present that I cannot enjoy the confidence you have the politeness to express in my opinion, by pointing out to you an object for a profitable investment of your money, unattended by risk of a disappointment of payment. The Banks of Penna & the Farmers & Mechanics are at this time applying to the Legislature for an extension of their Capitals, which if permitted will reduce the selling price of their stock. The Charter of the Bk of North America expires in three years, their stock has fallin & will be likely to continue depressed while this point is unsettled but is not likely to be concluded this winter

The loans of the Branches of the Philadelphia Bank have & will cripple that institution in such manner as to render confidence in its stock of the Bank U S is now at 9 per cent discount - That the Bank will eventually completely reimburse the original subscription may be fairly anticipated, a considerable period must however elapse ere this liquidation is made & no interest will be paid in the interim - Should the funds

[redacted]

[redacted]

0444

[redacted]

collected will be divided is uncertain. Dividends with this stock of from 3 to 5 p.c. profit may be anticipated, it is not probable it will go higher than at present, but the fluctuations if any obtain, will be sudden & probably any rise pop away ere you could be advised of it promptly, & such is the weight of this stock that a ready sale cannot be commanded at a moment.

Insurance stocks depend so greatly on the conduct of the administration that dealing in them is little better than Gambling, they are now depressed, sales are slow, & in case of difficulty with Engld would be utterly impracticable. The stock of the Bk of North America was 29 and 30 a few days since, it is now 30 a 31, the business doing by this institution is very profitable. The directors are intelligent & discreet. None of the institutions in this place possess so highly the confidence of the timid married people. The approach of the expiration of the term for which their charter was granted is the only difficulty. If I was compelled to select I would prefer an investment there, but I have doubts of its being profitable even there. The spirit of rivalship & of the spirit de corps that would be excited to the renewal of the Charter of the Bank of the United States will be active in opposition to the renewal of the Charter of the Bank of N America. Besides having of the rocks on which we split. The directors of the Bank of N America will avoid them I have already remarked those Gentlemen are intelligent & able & will be likely to succeed as they will lay their plans long before hand. So great is the confidence in this Direction, that many of the stockholders of the Bank U States will be likely to invest their money in this stock which will occasion an advance of some few p.c. when the funds of the Bk U.S. are distributed.

As a permanent investment on which a moderate dividend may be anticipated, many of the term of the stock are best secure, but even these will be affected somewhat by stagnation of Commerce & the best of this description are difficult to be had.

The evil genius that seems to preside over the destinies of our Country has poisoned the hopes of industry & care in all their ramifications — Commerce is reduced by the risks it is compelled to undergo, to such a state of uncertain speculation as to approximate it to gambling & of consequence to destroy that spirit of integrity & sober discretion that is essential to its well doing — a commercial spirit is the predominating one in the U States & when that is deteriorated all the vital arteries of the body politic become corrupt. Hence spring many of the difficulties that now surround us & created distrust in institutions which by

x Ten years if might [illegible] 45 & 50 a par

I have written more than I intended & the worst

Dear Sir

I send you by my brother the certified copy of the six Surrial Indictments against Cesar Rhoads with the Order of the Commissioners on each for the Sale of Cesar Rhoads and directing the application of the money arising from the Sale. When I forwarded to you a List of fines I did not attend to the words of the Order of the Court Mr Russell the Clk of the Sessions has not put in his Power to make a complete Bill of the Costs on the Surrial Indictments on Accot of Surrial of the witnesses not having proved their attendance. However he has Gone as far as he is enable to go, by which you will perceive that the Sale of Negro Cesar Rhoads did not amount to a sum sufficient to pay even the Cost that is taxed, much less to pay Witness & Prison fees. Negro Cesar Rhoads was confined in the prison of this County near Nine Months. I hope that under such Circumstances as those that attend the fines imposed on Cesar Roads that you will be enabled to Credit me for each & all of the fines I stand Charged with in your Office (as being fines due from me to the State) not collected from Cesar Rhoads. The Remission of the fine imposed on Joseph Houston Sailor inclose to you - if you Credit me for that and the fines on Cesar Rhoads I believe will leave a Balance due from me to the State of 80 Dollars 10 Cents. I wish you when you have made up the Accts to forward to me as early as convenient the Balance you make due to the State. I am Sir very sincerely your most
